EMERALD GLEN RECREATION AND AQUATIC COMPLEX WILL MAKE A SPLASH IN THE TRI-VALLEY

The City has embarked on the design and construction of a state-of-the-art Recreation and Aquatic Complex that will be the heart of Emerald Glen Park. This 30,000 square foot facility will be anchored by a natatorium with an indoor warm water pool for year-round swimming lessons, exercise programs, and recreational use. Outdoors, there will be a sport pool for competitive swimming and water polo, featuring eight lanes for competition and three warm-up lanes. The design includes a 16-foot-tall climbing wall at the edge of the sport pool, taking advantage of the deep water below the wall.

There are waterpark elements, including a slide tower with two speed slides, two loop slides and a large bowl slide. The splash pool features a beach entry with a large play structure, water dumping buckets and a splash pad with a variety of fun spray features. The facility will feature a cardio exercise room. Other amenities include group picnic areas, outdoor ping pong tables, locker rooms, party rental space, and administrative offices. Phase I will begin in early 2015 and be completed in summer 2016. Phase II will feature additional recreational facilities for the community, and the timing will be determined in the future.

PUT ON YOUR GREEN FOR DUBLIN'S 31st ANNUAL ST. PATRICK'S DAY CELEBRATION!

Where else but Dublin would you want to celebrate St. Patrick's Day? Join the community on Saturday and Sunday, March 15 and 16, from 10:00 AM to 5:00 PM at the Dublin Civic Center for the St. Patrick's Day Festival. The event features three stages of authentic Irish entertainment, plenty of Irish food and beverage, over 250 craft and commercial vendors (including an Irish Marketplace), carnival rides for all ages, and an authentic Irish Tea Cottage serving freshly brewed tea with scones and shortbread. Admission and parking are free!

Also, don't miss the Dublin Sister City Association's Green and White Gala, Alameda County Firefighters' Pancake Breakfast, the Dublin Lions Club Parade, and the Shamrock 5K Fun Run and Walk. Detailed information is available on the City's website: www.dublinstpats.com, or contact the Parks and Community Services Department at (925) 556-4500.

DUBLIN LIBRARY: A CENTURY OF SERVICE, 1914-2014

This year is the 100th anniversary of the founding of the Dublin Library. The first library opened in the historic Green Store on May 21, 1914. Over the years, library services would be delivered from a bookmobile, a garage, an elementary school, and a storefront on Village Parkway, before moving to its first permanent facility in 1979, and ultimately to the current site at Civic Center in 2003.

Virginia Bennett was the Library Manager from 1967 to 1979. She collected countless photos, newspaper articles, reports, letters and other papers documenting the Library's story. To celebrate that story, an exhibit, "A Century of Service," will open in May at the Heritage Park and Museums. To learn more about the Dublin Library, please visit www.aclibrary.org/branches/dub or the City's website.

LIVE HEALTHY DUBLIN: "STEP 2 IT CHALLENGE"

Fun, active lifestyles, one step at a time! The 10-week wellness challenge empowers residents to achieve optimal health through a customized fitness program. The "Step 2 It Challenge" is an exciting new way to team up with family, friends, or co-workers to get active and motivate each other to stay on track and get fit together. In this program, all participants will receive a pedometer and work toward the same goal—counting steps.

The "Step 2 It Challenge" lasts for 10 weeks, kicking off at the St. Patrick's Day Festival on March 16, and ending on Memorial Day weekend. There will be two community walks during the 10-week event, and participants will receive a weekly e-mail newsletter, promoting proper nutrition and highlighting healthy

recipes and motivational techniques. The Challenge will end with an awards ceremony at the Farmers' Market on Thursday, May 29. To register, go to www.livehealthydublin.com, and enter the code: LHDUBLIN. Step up, sign up, and join the fun! For more information, call (925) 556-4500.

DUBLIN FARMERS' MARKET TO RETURN IN APRIL!

The fourth season of the Dublin Farmers' Market will return on April 17 to Emerald Glen Park. The Market will run each Thursday, from 4:00 PM to 8:00 PM, through September 25.

In addition to offering fresh, locally-grown produce, delicious hot foods, and specialty items for your pantry, the Farmers' Market offers weekly special events. The Market will feature wine and beer tastings, musical entertainment, monthly cook-offs, and games and activities for the kids. Also, look for the return of "Dublin Idol" in May, when two Dublin students will be crowned this year's best performers. Please visit www.dublin.ca.gov/farmersmarket for more information, or call (925) 833-6650.

DUBLIN PRIDE WEEK: 30 YEARS OF COMMUNITY SERVICE

Join us April 26 through May 3 for the 30th Anniversary of Dublin Pride Week. Dublin Pride Week is a week-long annual event that promotes civic engagement and volunteerism in the Dublin community, and is held each year in the spring. The goal is to offer residents, visitors and businesses the opportunity to help improve the community through service. On the first Saturday of Dublin Pride Week, volunteers gather together for a simple breakfast before heading out to assist with volunteer projects across the City. Projects include park and school beautification, creek clean-up projects, and senior assistance. The day concludes with a BBQ lunch hosted by the Dublin Lions Club. For more information and to sign up, visit www.dublinprideweek.com.

2012 VOLUNTEER RECOGNITION AWARDS

At its annual Volunteer Recognition Awards event, held in February 2013, the City of Dublin announced the 2012 Citizen, Young Citizen, and Organization of the Year. The purpose of the awards is to recognize outstanding individuals and groups who have contributed to the quality of life in Dublin during the previous year. Nominations are based on the Integrity in Action Program's 10 characteristics: Responsibility, Respectfulness, Caring, Giving, Positive Attitude, Trustworthiness, Cooperation, Doing One's Best, Honesty, and Self-Discipline. The Young Citizen of the Year recognizes the volunteer service of Dublin's youth in the 1st through 12th grade. In addition, there is the Mayor's Award, which is presented by the Mayor to someone whom he believes has worked tirelessly on behalf of the Dublin community.

Congratulations to the following 2012 Winners:

Organization of the Year
Tri-Valley Youth Court

Young Citizen of the Year
Camille Chabot

Citizen of the Year
Janet Lockhart

Mayor's Award
Edy Coleman

The 2013 winners will be announced mid-February.

NEW PUBLIC SAFETY COMPLEX

The City acquired the former National Food Laboratory building on Dublin Boulevard and saw it as an opportunity to provide a place for future civic needs and growth. After months of work, the Alameda County Fire Department (ACFD) is scheduled in March 2014 to become the first tenant to permanently occupy part of the Dublin Public Safety Complex.

The building is located at the corner of Clark Avenue and Dublin Boulevard, across the creek from the Civic Center. Substantial work was completed to design the building for a variety of civic uses, and was constructed to meet the City's Green Building Ordinance. ACFD is leasing 14,000 square feet of the facility for its administrative offices, since staff is currently located throughout the County at several sites.

In the future, the City will make the best use of the space for civic needs.

CITY COUNCIL CREATES HUMAN SERVICES COMMISSION

Recognizing the community's growing human service needs, the Dublin City Council has created a Human Services Commission. The Commission's focus is on identifying ways to address the rising demand for human services in Dublin and the Tri-Valley. In 2011, a needs assessment was published identifying fourteen areas of human services concerns within the Tri-Valley area. Those concerns include issues ranging from access to behavioral health services to addressing the needs of seniors and youth. The Commission will work with the surrounding cities towards addressing these needs and finding solutions, not only for Dublin residents, but for the region. The Commission will support the efforts of the not-for-profit organizations providing services to the Dublin community. This new Commission, comprised of five Dublin residents, held its first quarterly meeting in early November 2013.

NEIGHBORHOOD WATCH

Whether you are new to Dublin or a longtime resident, the time is always right to start a Neighborhood Watch Group. Neighborhood Watch aims to bring together the community's interests in crime deterrence, volunteerism, and neighborhood preparedness. Operating in a "team" approach, residents work with each other, and with City staff and Police Services, to reduce the opportunity for crime in Dublin. Neighborhood Watch is truly one of the most effective ways to prevent crime in our community. Staff will help you get started and will provide the resources you need. There are great events throughout the year, including National Night Out. Visit www.dublin.ca.gov/nw to learn more. To find out if Neighborhood Watch is active in your neighborhood, or to set up a meeting, contact Neighborhood Resources at (925) 833-6610.

THANK YOU OFFICER CASTELLUCCIO

Dublin Police Services would like to recognize Officer Robert Castelluccio for his many years of service to the Community. Officer Castelluccio, known to us as Rob, was a member of the Dublin Police for the greater part of his career, and recently retired. He was probably most noted for his ten years as a Motorcycle Officer who was seen parked in different areas of the City peering over his Radar Unit. Officer Castelluccio was very well known to the younger residents of Dublin, as he was an integral part of the Bicycle Safety Rodeos which are held during the summer months at different elementary schools. Rob has offered to come back during the summer months and work as a volunteer at the Bicycle Rodeos, and the department is certainly looking forward to having him return. Dublin Police Services has added two new Motorcycle Officers to the team, and residents will now be seeing Officer Corvello and Officer Hellman, who are now in the Traffic Unit.

CITY OF DUBLIN RECEIVES BUSINESS AWARD FROM SILICON VALLEY LEADERSHIP GROUP

The City of Dublin was one of seven local public Bay Area agencies to receive the inaugural "Red Tape to Red Carpet" Award from the Silicon Valley Leadership Group for its work in helping build the economy and grow jobs through innovative government services. Dublin received the small city award in the Business Retention and Expansion category for the City's Toolkit for Revitalization and Job Growth. Dublin was lauded for a series of incentive programs that assist businesses. The City's efforts resulted in the creation of several hundred new jobs and more than \$1.5 million of new revenues anticipated from these efforts. The City's award is something to celebrate!

NEW DESTINATION SHOPPING IN DUBLIN

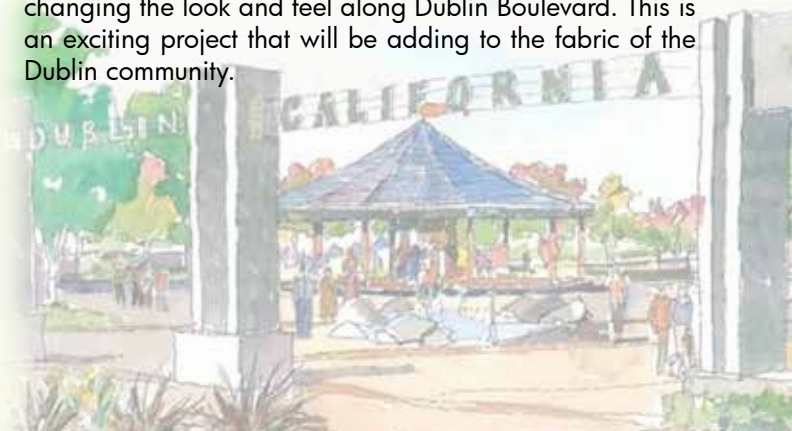

The Dublin City Council has approved a plan for the construction of a new retail center at the southwest corner of Dublin Boulevard and Hacienda Drive. Regency Centers, a major retail development company, plans to develop a 14-acre parcel, with an emphasis on business unique to the California region. Multiple tenants have already committed to the location, including **Whole Foods**, **Nordstrom Rack** and **Home Goods**. Construction at the site is anticipated to begin in spring 2014, with the goal of opening in spring 2015. For more information, please contact Economic Development at (925) 833-6650.

DUBLIN CROSSINGS

Dublin is poised to begin development of a major mixed-use project on Dublin Boulevard, which will further enhance the transit center, as well as develop an additional east to west road connection. The project, known as Dublin Crossings, was approved by the City Council in November 2013. The project will provide a large 30-acre community park, 5-acre neighborhood park, an elementary school site, commercial development, and up to 1,995 residential units, along with roadway, bikeway and pedestrian improvements. The project will be located on property that is currently part of the Camp Parks Reserve Forces Training Area (RFTA).

In addition, the project developer SunCal, will be building several new facilities on the base for the U.S. Army. Projects include a new main gate entry, and modernized facilities for the civilian employees and active duty personnel who work at Camp Parks.

These new neighborhoods and public facilities will be developed over the course of the next several years, providing additional amenities to the community and changing the look and feel along Dublin Boulevard. This is an exciting project that will be adding to the fabric of the Dublin community.

BUSINESS ROUNDUP

The City of Dublin is pleased to announce a lineup of new businesses coming to Dublin in 2014. **The Habit Burger** and **Freebirds World Burrito** recently opened in the Sprouts Shopping Center. **The Lazy Dog Restaurant & Bar** will be opening a location in Hacienda Crossings at the former Macaroni Grill site. **Fresh Pixx**, **Hawaiian Grill**

Express, **Blue Ginkgo Japanese Restaurant**, **Jersey Mike Subs**, and **Gum Kuo Restaurant** will all be moving in to Fallon Gateway. The City was also pleased to welcome **Serendipity by Kadupul** at the Ulferts Center, **Barons Jewelers** at Hacienda Crossings, **Dick's Sporting Goods** at Fallon Gateway, **Savers** in downtown Dublin, **Fresh Millions**, **All the Perks Espresso Café**, and **Caps & Taps** to The Shops at Tralee.

The City has also partnered with the Dublin Chamber of Commerce to provide business seminars in 2014. Topics include: Meet the Resources, Nuts & Bolts of Getting Your Business Online, and Search Engine Optimization/Discover Dublin for the Holidays.

For more information, please contact the City's Economic Development Department at (925) 833-6650.

TAX DOLLARS AT WORK IN DUBLIN

MEASURE B—SALES TAX

Last summer, the City utilized Measure B funds to continue its annual street overlay program. Approximately 460,000 square feet of pavement was removed, overlaid, and restriped in the community. Measure B funds are used to fund transportation projects and services throughout Alameda County. The Alameda County Transportation Commission (Alameda CTC) oversees and distributes the funds. During this next year, the City will utilize Measure B funds for bicycle and pedestrian safety projects, including bike lane striping along various City streets, updating the City's Bikeways Master Plan, educational outreach programs to improve walking and bicycling to and from schools, and the development of a pedestrian plan, along with continuing its street overlay program. For more information on Measure B, contact Public Works at (925) 833-6630 or visit the Alameda County Transportation Commission website at www.alamedactc.org.

MEASURE F—VEHICLE REGISTRATION FEES

In 2010, voters approved the Measure F Alameda County Vehicle Registration Fee Program, which generates approximately \$11 million per year for county-wide programs directed towards reducing congestion on County highways. The City of Dublin's portion of this funding is approximately \$210,000 per year. The City is using this funding to maintain and operate traffic signals and to manage the signal communication system, such as the recent upgrade which now allows staff to remotely manage signal timing and to monitor signal malfunctions. The project will also include "real time" camera monitoring at nine key intersections. The City is working to provide a website for viewing camera images and seeing real time traffic conditions on key arterial streets. The project is expected to be completed by June 2014.

PLANNING THE FUTURE OF WALKING AND BIKING IN DUBLIN

One of the City Council's Strategic Goals is to update the 2007 Bikeways Master Plan and develop a new Pedestrian Master Plan focused on Downtown Dublin. The goal of the plan is to create safe, pleasant places for walking and bicycling in Dublin that encourage and increase these activities while balancing the needs of all users. Over the past year, several workshops and meetings have been conducted to gather public input on proposed bicycle and pedestrian network updates. Measure B sales tax provides the funding for the combined Bikeways and Pedestrian Plan, which is anticipated to be completed and adopted by the City Council in spring 2014.

DUBLIN'S AWARD-WINNING TRAILS AND STREETS

Last March, the City of Dublin and the East Bay Regional Park District received the American Public Works Association – Northern California Chapter "2013 Project of the Year Award for Small Cities" for the Alamo Canal Trail/I-580 Undercrossing project. The award recognized the project's positive impact on the community by closing the trail gap underneath the I-580 freeway, encouraging bicycling and walking, and promoting a healthier lifestyle. Dublin's Public Works Department managed construction of the project and delivered it ahead of schedule and on budget. Construction was funded with Alameda County Measure B, Federal, and City funds.

In October, Dublin once again received recognition from the Metropolitan Transportation Commission (MTC) for best Bay Area roads. MTC's 2012 report ranked Dublin as one of seven jurisdictions with "very good" pavement condition. Dublin maintained the highest pavement condition rating in Alameda County. The Public Works Department implements annual pavement overlay and slurry seal projects in order to maintain our streets. The MTC report is available online at www.mtc.ca.gov.

DOWNTOWN TRANSIT DISTRICT – GOLDEN GATE DRIVE STREETScape

Last summer, the City completed construction of a streetscape project on Golden Gate Drive, from Dublin Boulevard to the West Dublin BART Station. The project enhances pedestrian and bicycle access to the BART Station, and provides an aesthetically-pleasing entryway to the Downtown Dublin Transit District. Construction features include widened sidewalks, colored and stamped crosswalks, pedestrian scale lights, green bicycle lanes, street trees, a raised landscaped median, and curbside stormwater treatment gardens. The project was funded with Alameda County's Measure B funds, Federal SAFETEA-LU funds, State Highway Safety Traffic Reduction Bond funds, and City of Dublin funds.

PARK DEVELOPMENT UPDATE

In 2013, the City opened two new parks, **Positano Hills Park** and **Schaefer Ranch Park**, and also initiated construction of **Passatempo Park**.

In summer 2013, construction began for Passatempo Park, located adjacent to Kolb Elementary School. Based on input from the community and the Dublin Unified School District, the park design includes science and nature-themed elements, which provide unique learning opportunities. The park incorporates passive elements that may be used for picnicking, strolling, and relaxing. The dedication of Passatempo Park will take place in spring 2014.

In 2014, the City will embark on several projects

that have been on the horizon, including:

- The creation of a Master Plan for the 30-acre community park for the **Dublin Crossing** development at Camp Parks. A task force will be formed to help develop the vision for the park, as well as the phasing plan.
- The City is also exploring the feasibility of creating an additional cemetery across from the **Pioneer Cemetery** at the Heritage Park and Museums. The Master Plan will be presented to the City Council in spring 2014, with an opportunity for the community to comment on the results of the study.

FALLON SPORTS PARK

The plans for the second phase of Fallon Sports Park will make it a premier sports training and tournament destination in Northern California. The phase II development of Fallon Sports Park is approximately 19 acres and encompasses the area south of the existing soccer fields extending to Central Parkway. The state-of-the-art amenities include two synthetic turf soccer fields, one 90' diamond baseball field, an adventure play area, picnic area, lighted bocce courts, restroom/concession space, and additional space for parking. In addition, the City's preschool program will be relocated from Emerald Glen Park to the upper terrace of Fallon Sports Park to make way for development of the Recreation and Aquatic Complex. The design will be completed in late 2014, and the construction and plant establishment in 2016.

IRON HORSE NATURE PARK AND OPEN SPACE MASTER PLAN

The Iron Horse Nature Park and Open Space Master Plan was adopted by the City Council in fall 2013. The Plan includes the restoration of the channelized San Ramon creek adjacent to the Iron Horse Trail, into a meandering stream; the re-establishment of native plants that reflect riparian, grassland, wetland and oak woodland habitats; a community garden site; a trail staging area; re-alignment of the Iron Horse Trail and additional secondary trails; and picnic and nature-based play areas. Staff is in the process of securing funding and applying for grants to develop the first phase of the Master Plan.

JORDAN RANCH NEIGHBORHOOD PARK

Design has begun on this new neighborhood park located in Phase I of the Jordan Ranch Development, east of Fallon Road. The City has conducted extensive public input to develop a Master Plan for the park improvements. The park will feature separate tot and youth play areas, a shade "sail" overhang, basketball courts, a grass volleyball court, restrooms, a turf area, and a group picnic area. Construction is anticipated to begin in summer 2014, with completion in summer 2015.

DID YOU KNOW?

Be Wise About Water— Conservation Tips To Reduce Your Water Use

1. Stop those leaks! (including faucets, toilets and sprinklers)
2. Replace your old toilet, the largest water user inside your home
3. Replace your clothes washer, the second largest water user in your home
4. Plant the right plants with proper landscape design and irrigation
5. Water only what your plants need

For information on the California drought, and ideas on what you can do to reduce your water use, including rebate information, visit the City website at www.dublin.ca.gov/waterwise

Water Conservation Plumbing Fixtures

As of January 1, 2014, a new state law requires existing single-family homes that have non-compliant plumbing fixtures be replaced with water-conserving fixtures. This law applies to existing single-family residential properties built on or before January 1, 1994. For a complete listing of plumbing fixtures considered compliant, please visit the City's website under the Building Division of the Community Development Department.

Carbon Monoxide Alarms

As of January 1, 2014, a new state law requires all existing dwelling units with an attached garage, or appliances that burn fuel, such as gas, coal, or wood, to have carbon monoxide (CO) alarms installed. A reminder that the CO alarms must be placed on every level of a residence, including basements, and must be placed per the manufacturer instructions. For more information on this new law, please visit the City's website under the Building Division of the Community Development Department.

DUBLIN—ENERGY IN ACTION

The City is excited to announce the completion of its Energy Action Plan projects, which have been under construction over the past year. The City's Energy Action Plan included a set of energy conservation measures, including renewable energy and energy efficiency improvements, designed to not only increase the City's sustainability efforts, but also to save the City money. These conservation measures include the installation of solar power generation at all City facilities, installation of more than 3,100 LED streetlights, interior and exterior lighting improvements at all City facilities, HVAC energy upgrades at the Civic Center and Library, installation of low flow water fixtures at all City facilities, and water-saving irrigation measures at the City's parks. These improvements are designed to save the City over \$14 million over the 25-year life of the project, pay for themselves, and were accomplished with no capital outlay from the City. All of this was accomplished by using the savings generated from the conservation measures, saving the City more than \$500,000 in utility costs annually. In addition to the savings, the reduction in energy consumption will result in a reduction in greenhouse gas emissions totaling more than 1,100 metric tons yearly—the equivalent of removing nearly 250 cars from the street every day of the year for the 25 years of the project life. In totality, the project will remove the equivalent of more than 2.2 million cars worth of emissions from the community over its useful life.

For more information about the City's environmental programs, visit the City's website, or call (925) 833-6650.

INCREASE YOUR HOME'S ENERGY EFFICIENCY

Through December 2014, Dublin residents can sign-up online to use a free Home Energy Analyzer (HEA) that will provide detailed information on their home's energy footprint, along with low-cost solutions for reducing energy use. The HEA uses advanced analytics to monitor a home's energy consumption, and provides specific tips to help save money and make your residence more comfortable. You must be a PG&E residential customer in order to participate. Go to www.homeenergyanalyzer.org to sign up.

TURN THE KEY—BE IDLE FREE!

You can save money, reduce air pollution, and help everyone breathe easier just by turning a key! Turn off your car engine if you'll be sitting for more than 30 seconds at a car wash, drive-through or pick-up spot. You'll save gas, money, and help Spare the Air!

The Tri-Valley Spare the Air Resource Team presents "Idle Free Tri-Valley" (www.idlefreevalley.org) to help create cleaner air around the community. Sign the online pledge for entry into a monthly drawing for a \$10 Starbucks card. The Idle Free pledge states that you will turn off your vehicle while waiting in your car for more than 30 seconds. Join us all year round to reduce idling, save money, and help Spare the Air in the East Bay.

CITY FINANCE KNOW-HOW

Are you interested in City finances? The City Council will be discussing the next two year preliminary budget at their March 19 City Council meeting. Every year the City develops a year-end summary of the programs, accomplishments and financial summary of the previous fiscal year, and presents it in the Annual Report. Look for the report to come in your fall Activity Guide. The City also has the current fiscal year budget and information on its website.

CITY MEETINGS

Regularly scheduled City Meetings are held at the Dublin Civic Center at 100 Civic Plaza. Agendas are posted prior to meetings at the Dublin Civic Center (100 Civic Plaza), the Dublin Senior Center (7600 Amador Valley Blvd.), the Dublin Library (200 Civic Plaza), Shannon Community Center (11600 Shannon Ave.), and the City's website.

GET INVOLVED

Inside Dublin Leadership Academy

Have you thought about getting more involved in your community? You are encouraged to apply to participate in the 2014 *Inside Dublin* Leadership Academy, sponsored by the City of Dublin. This interactive program informs participants about City services, current and future issues facing the community, and encourages everyone to get involved. *Inside Dublin* is a seven-week program held on Thursday evenings in the Fall. The program has graduated over 170 participants since it was created! Class size is limited to the first 20 applicants (you must work or live in Dublin). For more information call (925) 833-6650, or complete the application online on the City's website.
